Sheriff Robert Johnson,

I am writing to you because the Pace Sheriffs office gave me you name and address to forward my complaint.

I am writing to you because Sheriff Deputy Hubbard says he can't remember what he did with my wallet on the night of my arrest, Monday night, Jan. 22, 2018.

I asked him where my wallet was on the way to the jail and he said he thought he might have put it in the car with the keys, but wasn't sure. If not he would look in his car.

When I arrived at the jail, no wallet.

I had \$239.00 in cash.

I also had 3 earned certificates from my construction job in the wallet which are very important for me to get my rank in pay.

Also my bank cards and insurance cards.

I cannot accept that he doesn't remember what he did with it.

I would like to ask for your help and get a copy of the video stop that night to see what happened to my wallet. I need the money and need the certificates more. I would appreciate any help. Thank you.

Sheriff Robert Johnson,

Around 1:17 am, Monday, Jan. 22, 2018 Deputy Stevens called my home to advise of Kalins arrest. He asked me if I could pick up Kalins car and gave me directions. When arriving myself and my son (Kalins father) talked to him for a while.

Upon my son entering the car we could not find the car keys. He searched the front and I searched the back of the car. We found Kalins phone and the phone charger. We could not locate the keys. Deputy Stevens called Deputy Hubbard and he said he thought he left them on the drivers seat. We checked the seat again and my son found the wedged into the back of the seat.

We asked Deputy Stevens what happened to the wallet and he said it went along with Kalin to the jail. I asked him if he was sure, because Kalin knew not to do that. He said he was sure, and saw Deputy Hubbard take his license out.

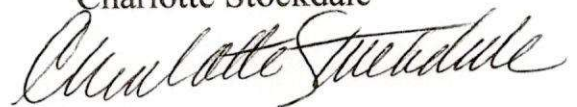

When we got home my son and I immediately went through the car and trunk again thoroughly and there was no wallet in the car.

The next day Kalin called from the jail and was upset because he did not have his wallet. I called the Pace Sheriffs Department and asked for Deputy Stevens to call me back. A little while later Deputy Hubbard called back and said he would check his car and call me back. He called back and couldn't find anything in his car and couldn't remember what happened to it.

When Kalin was released we both went to the scene and thoroughly searched the arrest scene even looking under the roadside trash. Nothing.

The contents of the wallet are very important and to have this dismissed so lightly is not acceptable. I am asking for this to be looked into more. Perhaps it will turn up.

Sheriff Johnson,

I am Kalins Father and was with my mother on the night in question. I looked through Kalins car twice at the scene and once again at home that night and the next morning and could not find his wallet.

Deputy Stevens told us that the wallet went to the jail with Kalin. Kalin called the next day and said that the jail did not receive any wallet upon his arrival. I would like your input into this matter. Thank you.
